Obituary

Professor EMIL ATZEV died recently at the age of 54. He was the Founder and President of long standing of the Bulgarian Society of EEG and Clinical Neurophysiology. Professor Atzev was active in research on experimental epilepsy, thalamo-cortical interrelations, and regulation of the brain and nerve processes. He collaborated with Professor Anochin (USSR), Professor Ward (USA), and Professor Narikashvili (USSR). In the last years of his life Professor Atzev was Director of the Central Laboratory for Brain Research of the Bulgarian Academy of Sciences and Head of the Department of Nerve Processes Regulation at the Institute of Physiology of the Bulgarian Academy of Sciences.
